

CALL FOR PAPERS

ICAFST 2021
Jul 12-13, 2021
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAFST 2021 : International Conference on Animal Feed Science and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Animal Feed Science and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Animal feed science and technology
Animal nutrition and feed science
Nutritive value of feeds
Methods of conserving and processing feeds that affect their nutritional value
Agronomic and climatic factors influencing the nutritive value of feeds

Utilization of feeds and the improvement of such
Metabolic, production, reproduction and health responses of diet inputs and feed technologies
Mathematical models relating directly to animal-feed interactions
Analytical and experimental methods for feed evaluation
Environmental impacts of feed technologies in animal production
