

CALL FOR PAPERS

ICAUS 2021
Jul 12-13, 2021
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAUS 2021 : International Conference on Applied Urban Science is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Applied Urban Science. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Urban science	Theories of architecture
Urban engineering	Three-dimensional transportation system
Municipal engineering	Transportation engineering
Specifying, designing, constructing and maintaining	Urban traffic control and congestion pricing
Aesthetics and landscape energy	Vehicle safety and emissions
Urban planning and design	Streets
Landscape architecture	Sidewalks
Construction technology	Water supply networks
Engineering management	Sewers
Intelligent transportation and logistics	Street lighting
Modeling and simulation of transportation system	Municipal solid waste management and disposal
Road and bridge engineering	Storage depots
Structural engineering
