

CALL FOR PAPERS

ICCADD 2021
Jul 12-13, 2021
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCADD 2021 : International Conference on Computer-Aided Drug Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer-Aided Drug Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer-aided drug design
Advances in computer-aided drug design
Computer-aided drug design and applications
Computer-aided drug discovery and development
Ligand based drug design
Structure based drug design
Software development
Biomedical applications
Screening for new drugs

Modifications for improvement
Mechanism based drug design
Basic mechanisms of drug design
Quantitative structure activity relationship
Computer graphics
Molecular modeling, mechanics and dynamics
Conformational analysis
Quantum mechanics
Important techniques of drug design
