

CALL FOR PAPERS

ICCCSD 2021
Jul 12-13, 2021
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCSD 2021 : International Conference on Concrete Construction and Structural Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Concrete Construction and Structural Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Concrete structures
Reinforced concrete
Design methods in reinforced
concrete
Sustainable construction
Possibilities in concrete
structure
Technical concepts
Unreinforced concrete
Design basis for reinforced
concrete
Reinforced and prestressed
concrete

Strut and tie modeling
Construction and the environment
Waste construction waste
Embodied energy
Energy required for concrete
Corrosion of reinforced concrete
Corrosion prevention
Structural design
Good practice in concrete design
