

# CALL FOR PAPERS

**ICCCSD 2021**  
**Jul 12-13, 2021**  
**Ottawa, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCSD 2021 : International Conference on Concrete Construction and Structural Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Concrete Construction and Structural Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Concrete structures  
Reinforced concrete  
Design methods in reinforced  
concrete  
Sustainable construction  
Possibilities in concrete  
structure  
Technical concepts  
Unreinforced concrete  
Design basis for reinforced  
concrete  
Reinforced and prestressed  
concrete

Strut and tie modeling  
Construction and the environment  
Waste construction waste  
Embodied energy  
Energy required for concrete  
Corrosion of reinforced concrete  
Corrosion prevention  
Structural design  
Good practice in concrete design
