

CALL FOR PAPERS

ICCIP 2021
Jul 12-13, 2021
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCIP 2021 : International Conference on Cochlear Implants Programming is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cochlear Implants Programming. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cochlear implants
Cochlear implant design
Components of cochlear implant systems
Internal components
Receiver-stimulator
Electrode arrays
Stimulating electrodes
External components

Telemetry
Programming cochlear implants for auditory performance
Speech perception
Surgical procedure
Usage and efficacy
Speech perception, localization, and lateralization with bilateral cochlear implants
Complications of cochlear implant surgery in adults and children
Current designs and future possibilities
