

CALL FOR PAPERS

ICDCEST 2021
Jul 12-13, 2021
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDCEST 2021 : International Conference on Defence Chemistry, Explosives Science and Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Defence Chemistry, Explosives Science and Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Defence chemistry
Defense engineering
Theory and practice
Distribution of defenses
Patterns of allocation
Defence and chemical piracy
Explosives science and technologies
Fuel science
Environmental safety management

Chemical, biological, radiological and nuclear studies
Analysis and characterisation, testing and ageing
Explosives, propellants, pyrotechnics, fuels and polymers
Dedicated hazard testing
Defense acquisition management
Acquisition environment
Defense systems acquisition
National security
