

CALL FOR PAPERS

ICFPE 2021
Jul 12-13, 2021
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFPE 2021 : International Conference on Flexible and Printed Electronics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Flexible and Printed Electronics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Printed and flexible electronics
flexible and printed displays
Printed and flexible integrated
circuits
Fine line process and equipment
OLED lighting
Hybrid integration and
applications
R2r processes and equipment
OTFT physics
Printed OPV
Flexible medical sensors

Conductive and functional inks
Organic semiconductor materials
Inorganic TFT technology
Paper electronics
Chemical and bio sensors
Flexible substrates and barriers
Frontier energy devices
Measurement and evaluation
OE-A: new technologies and
applications for printed
electronics
