

# CALL FOR PAPERS

**ICIMCE 2021**  
**Jul 12-13, 2021**  
**Ottawa, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIMCE 2021 : International Conference on Intelligent Manufacturing and Control Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Intelligent Manufacturing and Control Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Intelligent manufacturing  
Intelligent manufacturing systems  
Intelligent systems for  
manufacturing  
Multi-agent systems and mobile  
agents  
Holonc manufacturing systems  
Agent models and production  
planning  
Mobile agent technology  
Multiagent systems and the  
internet  
Multiagent systems in scheduling  
Agile scheduling  
Scheduling in a multi-agent  
environment  
Building multi-agent systems

Intelligent supervision systems  
Virtual enterprises, enterprise  
models, and infrastructures  
Concurrent engineering  
Knowledge-based systems in design  
Modeling in manufacturing  
Manufacturing information systems  
Product data management and  
analysis  
Quality management  
Soft-computing in manufacturing  
Pattern cognition and diagnostics  
Simulation and design  
Theoretical aspects of design
