

CALL FOR PAPERS

ICLMED 2021
Jul 12-13, 2021
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLMED 2021 : International Conference on Land Management and Economic Development is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Land Management and Economic Development. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Land Management and Economic Development
Sustainable Land Management
Capacity Building in Land Management
Geo Informatics and Geodesy
Land Tenure and Cadastral Infrastructures
Combating Land Degradation
Managing Urban Land
Land Management and Mobilization
GIS and Remote Sensing
Land Degradation and Sustainable Soil Management
Land degradation, remediation and reclamation
Policies for soil health management in agriculture

Soil genesis and classification
Geo-spatial/Remote Sensing technologies for soil management
Soil and water conservation
Carbon sequestration and management
Soil and water pollution
Wetland soils and climate change
Nutrient management for soil sustainability, food security and human health
Soil properties and modeling
Deforestation, overgrazing and desertification
Socio-economic aspects of sustainable land/soil management
Impact of climate change on soils
Sustainable Sloping Lands and Watershed Management
