

# CALL FOR PAPERS

**ICMIE 2021**  
**Jul 12-13, 2021**  
**Ottawa, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMIE 2021 : International Conference on Medical Informatics and Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Medical Informatics and Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Medical informatics  
Behavioural science  
Clinical Internet applications  
Statistical methods in medicine  
Computing methodology and software systems  
Evaluation of clinical practice  
Scientific fundamentals of processing data  
Cellular engineering and molecular imaging  
Medical informatics and health  
Medical informatics and healthcare systems  
Medical informatics and biomedical informatics  
Medical informatics and clinical informatics  
Medical informatics and health system

Medical informatics and health informatics  
Medical informatics and electronic medical records  
Medical informatics and nursing  
Medical informatics and neuroinformatics  
Medical informatics and public health  
Medical informatics and healthcare  
Medical informatics and ethics  
Medical informatics and telemedicine  
Medical informatics and services  
Medical informatics and research  
Medical informatics and engineering  
Medical informatics and biostatistics  
Medical informatics and obstetrics
