

CALL FOR PAPERS

ICMMA 2021
Jul 12-13, 2021
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMMA 2021 : International Conference on Microrobotics, Methods and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Microrobotics, Methods and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Microrobotics
- Micromechanical systems
- Mobility and manipulation mechanisms
- Miniature sensing technologies
- Micro power supplies
- System integration

- Robot motion control, fine motion, and collective behaviors
- Multiple robot cooperation and architectures
- Robot benchmarks in realistic environments and task scenarios
- Novel applications
- Service, medical, science, surveillance, agricultural, manufacturing
