

CALL FOR PAPERS

ICPMS 2021
Jul 12-13, 2021
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPMS 2021 : International Conference on Port and Maritime Security is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Port and Maritime Security. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Port and Maritime Security
Supply chain security: Scope and the risk element
Threats and vulnerabilities in global supply chains
Costs and benefits of supply chain security
Systems for improving supply chain security

Modelling supply chain security and risk
Risk and reliability in transport systems
Piracy and security in marine transport systems
Resilience and security in port systems
