

CALL FOR PAPERS

ICQCR 2021
Jul 12-13, 2021
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICQCR 2021 : International Conference on Quantum Chemistry and Research is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Quantum Chemistry and Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Quantum chemistry
Computational quantum chemistry
Experiments of chemical systems
Experimental and theoretical methods
Electronic structure and computational chemistry
Wave model
Valence bond
Molecular orbital
Density functional theory

Chemical dynamics
Adiabatic chemical dynamics
Non-adiabatic chemical dynamics
Atomic physics
Computational chemistry
Condensed matter physics
Electron localization function
Physical chemistry
