

# CALL FOR PAPERS

**ICQCR 2021**  
**Jul 12-13, 2021**  
**Ottawa, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICQCR 2021 : International Conference on Quantum Chemistry and Research is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Quantum Chemistry and Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Quantum chemistry  
Computational quantum chemistry  
Experiments of chemical systems  
Experimental and theoretical methods  
Electronic structure and computational chemistry  
Wave model  
Valence bond  
Molecular orbital  
Density functional theory

Chemical dynamics  
Adiabatic chemical dynamics  
Non-adiabatic chemical dynamics  
Atomic physics  
Computational chemistry  
Condensed matter physics  
Electron localization function  
Physical chemistry
