

# CALL FOR PAPERS

**ICSCCSE 2021**  
**Jul 12-13, 2021**  
**Ottawa, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSCCSE 2021 : International Conference on Sustainability in Civil, Construction and Structural Engineering is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainability in Civil, Construction and Structural Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sustainable civil engineering  
Environmental engineering for civil systems  
Systems approaches in engineering  
Life cycle issues in civil engineering  
Future change and infrastructure monitoring  
Circular economy and civil infrastructure  
Multiple use infrastructure  
Low carbon construction  
Processing and managing field data  
Reliability in civil engineering  
Innovation and entrepreneurship in delivering civil infrastructure

Sustainable development  
Sustainability in civil engineering  
Civil and structural engineering  
Sustainability in geotechnical engineering  
Recycled and demolished materials for construction  
Recycled concrete, recycled brick, recycle rubble  
Waste residues in construction and local materials  
Rammed earth and similar products  
Cementless concrete materials  
Agriculture waste for concrete and other applications
