

# CALL FOR PAPERS

**ICSCTUID 2021**  
**Jul 12-13, 2021**  
**Ottawa, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSCTUID 2021 : International Conference on Software Case Tools and User Interface Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Software Case Tools and User Interface Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- |                                    |                                 |
|------------------------------------|---------------------------------|
| Software case tools                | Programming tools               |
| Case tools                         | Prototyping tools               |
| Software analysis and design tools | Web development tools           |
| Components of case tools           | Quality assurance tools         |
| Scope of case tools                | Maintenance tools               |
| Diagram tools                      | Software development life cycle |
| Process modeling tools             | Software testing                |
| Project management tools           | Software design complexity      |
| Documentation tools                | Software user interface design  |
| Analysis tools                     | Software design strategies      |
| Design tools                       | Software requirements           |
| Configuration management tools     | Software project management     |
| Change control tools               |                                 |
