

CALL FOR PAPERS

ICSRAE 2021
Jul 12-13, 2021
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSRAE 2021 : International Conference on Software Requirements Analysis and Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Software Requirements Analysis and Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Software requirements analysis	Strengths
Basic requirements process	Weaknesses
Functional requirements	Alternative to requirement lists
Non-functional requirements	Measurable goals
Notations, techniques and methods	Prototypes
Software lifecycles	Use cases
Analysis and modeling	Requirements specification
Design	Types of requirements
Steps in the requirements phase	Requirements analysis issues
Stakeholder identification	Stakeholder issues
Stakeholder interviews	Engineer/developer issues
Joint requirements development	Attempted solutions
(JRD) sessions	
Contract-style requirement lists
