

CALL FOR PAPERS

ICTTC 2021
Jul 12-13, 2021
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTTC 2021 : International Conference on Thermoset and Thermoplastic Composites is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Thermoset and Thermoplastic Composites. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Thermoplastics and Thermoplastic Composites
Situation of Plastics Compared to Conventional Materials
Polymers and Their Roles in the Industry and Economy
Thermoplastics, Thermoplastic Elastomer, Thermosets, Composites and Hybrids
Thermoplastic Families and Processing Modes
Plastics Processing Industry
Selection of Thermoplastics for Engineering Applications
Plastic Properties and Plastic Structural Properties
Thermoplastic Elastomers

Biosourced Thermoplastics
Molding Thermoplastics
Extrusion and Connected Processes
Plastics Solutions for Practical Problems
Fire Retardant Thermoplastics and Halogen-Free Fire Retardant Solutions
High Heat-Resistant Thermoplastics
Thermoplastics for Low-Temperature Applications
Thermally Conductive Thermoplastics
Chemical Resistance of Thermoplastics
