

CALL FOR PAPERS

ICWS 2021
Jul 12-13, 2021
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWS 2021 : International Conference on Weapon Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Weapon Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Weapon systems
- Weapon systems technology
- Weapon and sensor systems
- Autonomous weapon systems
- Weapon systems, optics and sensors
- Combat systems design
- Communications equipment
- Electronic warfare systems
- Mortar systems
- Ammunitions
- Optronics
- Rocket systems

- Sensors
- Sonars
- Warship prime contracting
- Navy missiles, torpedoes, and weapon systems
- Weapon systems, optics, sensors, camouflage
- Small arms weapon systems performance - combat experience and trends
- Progress in ballistic performance of small arms ammunition
- New calibres and their standardization for small arms
- Future electronic equipment of small arms
- Optoelectronics technology and devices
- Sensors integration into the systems
- Adaptive and optical camouflage
