

# CALL FOR PAPERS

**ICQMSS 2021**  
**Jul 19-20, 2021**  
**Paris, France**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICQMSS 2021 : International Conference on Quantum Materials, Systems and Structures is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Quantum Materials, Systems and Structures. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Quantum materials	Crystal lattice structure
Quantum materials synthesis and fabrication	Variety of electronic phases
New synthesis techniques for quantum materials	Liquid, liquid-crystal and crystalline states
Quantum materials and advanced applications	Metal oxides and related compounds
Experimental techniques	Chemistries of quantum materials
Materials characterization	Advanced measurement techniques
Crystallography and nanofabrication	Magnetic moments, electronic and crystal structures
High magnetic field facility	Nano-magnets, multiferroic and spintronics systems
Entanglement of electrons	Superconductivity
Electron correlations in solids
