

CALL FOR PAPERS

ICAGS 2021
Jul 08-09, 2021
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAGS 2021 : International Conference on Advanced Geoinformation Science is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Geoinformation Science. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geoinformation science
Geographical information science
Geographical information systems
Geo-informatics
2D/3D GIS, 2D/3D
City modeling
3D generalization
3D geo visualization
Spatial data infrastructure
Open source GIS
Web GIS
Crowdsourcing and volunteered geographic information
Disaster management

Dynamic GIS
Decision support systems
Modern (3D/4D) cadastre
GIS in civil engineering
Multi-dimensional and multi-scale spatial data modeling
Spatial data and model quality
Spatial database
Data infrastructure and integration
Data acquisition and processing
Spatial reasoning and spatial data mining
Geostatistics and geostatistical methods
Cloud computing for spatial data and information
