

CALL FOR PAPERS

ICASD 2021
Jul 22-23, 2021
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASD 2021 : International Conference on Acoustic Sensors and Detectors is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Acoustic Sensors and Detectors. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Acoustic sensors
Current trends in acoustic sensors
Recent advances in integrated acoustic sensors
Contemporary trends in acoustic sensing
Fiber-optic acoustic sensors
Acoustic, sound and vibration sensors
Physical aspects of sensing mechanism
Acoustic measurement sensors and instrumentation

Fabrication of acoustic sensor systems
Characterization and performance of pressure sensor devices
Electronic acoustic sensors for control circuits
Acoustic sensor applications
Acoustic sensors for industrial, environmental and health monitoring
Acoustic sensors for chemical and biochemical detection
Acoustic sensors for industrial applications
Acoustic sensors for medical applications
