

# CALL FOR PAPERS

**ICWPTA 2021**  
**Jul 22-23, 2021**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWPTA 2021 : International Conference on Water Purification Technologies and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Water Purification Technologies and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Water pollution and aquaculture  
Adaptation and mitigation  
strategies  
Purification of drinking-water  
supplies  
Water pollution and environmental  
engineering  
Treatment, disposal and discharge  
of wastewater  
Wastewater treatment technologies  
Methods of monitoring water  
quality  
Modeling and measuring of water  
pollution  
Water purification technologies  
Ground water pollution control  
Water resources and quality  
assessment  
Hydrobiology and water pollution  
Water management and planning

Water policies  
Urban water management  
Water quality  
Flood risk  
Hydraulic engineering  
Purification of drinking-water  
supplies  
Treatment, disposal and discharge  
of wastewater  
Wastewater treatment technologies  
Methods of monitoring water  
quality  
Modeling and measuring of water  
pollution  
Water purification technologies  
Ground water pollution control  
Water resources and quality  
assessment
