

CALL FOR PAPERS

ICWSUDUCE 2021
Jul 22-23, 2021
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWSUDUCE 2021 : International Conference on Water Sensitive Urban Design in Urban and Civil Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Water Sensitive Urban Design in Urban and Civil Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Active Transportation	Economic Value of Green
Architectural and Urban Design	Infrastructure
Architecture, Building and Planning	Ecosystem Management
Architecture and Landscape Architecture	Environment and Planning
Biodiversity: Wildlife Habitat and Linkage	From Local-specific to Global-regional Interventions
Cities, Green Infrastructure and Health	Global Urban Design and Planning
Contemporary Urban Environment	Gray and Green Infrastructure for Increased Urban Resiliency
Contemporary Urban Transformations	Green Infrastructure
Creative City-building Initiatives	Green Infrastructure and Community Design
Designing Green and Blue Infrastructure to Support Healthy Urban Living	Green Infrastructure and Issues in Managing Urban Stormwater
Designing Operative Landscape Structures for the Built Environment	Green Infrastructure and Low Impact Development
Designing the Future of Urban Living	Green Infrastructure and Renewable Energy
Ecological Design of Urban Landscapes	Green Infrastructure and Sustainable Drainage Systems
	Green Infrastructure and Sustainable Site Design
