

CALL FOR PAPERS

ICBEPPD 2021
Jul 15-16, 2021
Stockholm, Sweden

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBEPPD 2021 : International Conference on Biogas Engineering, Production and Plant Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biogas Engineering, Production and Plant Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Biogas engineering
- Biogas plant design
- Biogas production and technologies
- Advances in biogas technology
- Planning and construction of biogas plants
- Biogas generation, purification and bottling development
- Biogas science and technology
- The production of biogas
- Composition of the extracted biogas
- Generation of electricity and heat
- Feeding biogas into the natural gas grid

- Small-scale biogas technologies
- Applications and environmental impacts of biogas
- Industrial waste biogas
- Large scale biogas production and challenges
- Biogas technologies
- Market potential of biogas reactors
- Biogas from agriculture waste
- Biogas production from algae
- New and possible substrates for biogas production
- Measuring and upgrading biogas environment
