

# CALL FOR PAPERS

**ICET 2021**  
**Jul 15-16, 2021**  
**Stockholm, Sweden**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICET 2021 : International Conference on Electronics for Transportation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electronics for Transportation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Transportation electronics  
Control electronics for vehicle engineering  
Safe electronics in transportation systems  
Transportation electronics systems and software  
Automotive power electronics and motor drives  
Electronics for railway and ground transportation  
Design of electronic control unit for automobiles  
Power electronics for new automotive energy technologies  
Hybrid and electric vehicle battery testing  
Power electronics for renewable energy systems transportation

Computers in transportation and computer electronics  
Electrical and electronics testing for transportation electronics  
Electromagnetic compatibility testing  
Engine control electronics  
Car seat cooling and heating  
Steering wheel cooling and heating  
Power electronics cooling  
Traffic signaling systems  
Intelligent parking
