

CALL FOR PAPERS

ICACDP 2021
Jul 19-20, 2021
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACDP 2021 : International Conference on Advances in Cancer Detection in Pediatrics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Cancer Detection in Pediatrics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Incidence and types of childhood cancer
Biological processes leading to cancer development
Exposure assessment and its challenges
Investigating potential cancer clusters

Advances in cancer detection and imaging
Advances in pediatric leukemia treatment
Advances in pediatric lymphoma treatment
Diagnosis, immunization and preventive measures
