

CALL FOR PAPERS

ICCUE 2021
Jul 19-20, 2021
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCUE 2021 : International Conference on Construction and Urban Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Construction and Urban Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Construction engineering and urban design
Urban design and environment
Civil and Municipal/Urban engineering
Municipal infrastructure
Architecture and urban planning
Architectural design and theories
Urban planning and design
Building and Construction technologies
Art design and landscape architecture
Aesthetics and landscape
Energy conservation and equipment
Construction and renewable energy sources
Ecological construction and intelligent control

Seismology and earthquake engineering
Environmental engineering
Environmental science and health
Environment and social development
Environment and economic restructuring
Environment and pollution cost
Environmental clean technology
Environment and climate change
Environment and waste management
Water supply and sewage processing
Green construction and environmental protection
Acquisition, processing and publishing of traffic information
Traffic guidance and forecast
