

CALL FOR PAPERS

ICCNAMAN 2021
Jul 29-30, 2021
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCNAMAN 2021 : International Conference on Communication Network Architecture and Metropolitan Area Networks is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Communication Network Architecture and Metropolitan Area Networks. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Network architecture
Communication network architecture
Design principles
Network architecture trends
Network architecture evolution
Message switching architecture
Network topologies
Network components
Network types and communication technologies
Personal area networks
Local area networks
Metropolitan area networks
Wide area networks

The internet
Security
Circuit switching
Applications
OSI network model
Physical layer
Data-linking layer
Network layer
Transport layer
Session layer
Presentation layer
Application layer
Distributed computing
