

CALL FOR PAPERS

ICCTCW 2021
Jul 29-30, 2021
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCTCW 2021 : International Conference on Chemical Terrorism and Chemical Warfare is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Chemical Terrorism and Chemical Warfare. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Chemical warfare	Nerve agents as chemical weapons
Chemical weapons	Mustard gases as chemical weapons
Chemical weapons treaties	Mustards signs, symptoms, diagnosis, and decontamination
Chemical weapons convention	Mustards treatment and prognosis
Chemical warfare agents	Chemical weapons production
Chemical terrorism	Military perspectives on chemical weapons
Classes of chemical warfare agents	The effects of mustard gas
Protection against chemical warfare	Physical properties of chemical weapons
Chemical weapon proliferation	Clinical effects
Chemical weapons destruction	Medical management
Prohibited weapons and production facilities	Decontamination
Risk of exposure to chemical weapons	Phosgene, chlorine and sarin
Types of chemical weapon agents
