

# CALL FOR PAPERS

**ICNDT 2021**  
**Jul 29-30, 2021**  
**Zurich, Switzerland**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNDT 2021 : International Conference on Neuroendocrinology and Disease Therapies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Neuroendocrinology and Disease Therapies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Psychoneuroendocrinology of functional somatic disorders  
Advancements in neuroendocrinology  
The endocrine study of depression  
Molecular hormone action  
Steroids and the nervous system  
Estrogen, stress, and depression: a neurocognitive model  
Perimenopausal depression  
Antidepressants associated hyponatremia and endocrinologist role

Endocrinology and recurrent depressive disorder  
Metabolic bone disease  
Lipid disorders  
Translational endocrinology and metabolism  
Paraganglioma  
Imaging in endocrinology  
Role of oestrogen in ocular function  
Implication of epigenetics in pancreatic diseases
