

# CALL FOR PAPERS

**ICRAUL 2021**  
**Jul 29-30, 2021**  
**Zurich, Switzerland**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRAUL 2021 : International Conference on Recent Advances in Unsupervised Learning is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Recent Advances in Unsupervised Learning. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Unsupervised learning
- Principal components analysis
- K-means clustering
- Hierarchical clustering
- Unsupervised learning of visual features

- Feature selection for unsupervised learning
- Unsupervised learning of language
- Unsupervised learning of sensorimotor interactions
- Unsupervised learning in recurrent neural networks
