

# CALL FOR PAPERS

**ICWRTOL 2021**  
**Jul 29-30, 2021**  
**Zurich, Switzerland**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWRTOL 2021 : International Conference on Wildlife Radio Telemetry and Online Localization is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wildlife Radio Telemetry and Online Localization. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wildlife radio telemetry  
Animal monitoring technology  
Equipment, field techniques and data analysis  
Analysis of wildlife radio-tracking data  
Models of age-specific survival and breeding  
Demographic estimates from radio-tagging  
Wildlife radio telemetry  
Fish and wildlife tracking solutions  
Effects of radio-tagging on breeding behavior

Methods of radio-tagging  
Techniques for radio-tagging  
Online localization of radio-tagged wildlife  
Tracking animal location and activity  
Marine mammal tagging  
Wildlife control technology  
GIS for wildlife management  
GIS for wildlife conservation  
Satellite imagery
