

# CALL FOR PAPERS

**ICAGBB 2021**  
**Aug 05-06, 2021**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAGBB 2021 : International Conference on Animal Genetics, Biology and Biotechnology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Animal Genetics, Biology and Biotechnology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Animal genetics  
Advanced animal genetics  
Animal cloning and genetic operations  
Animal immunogenetics  
Animal molecular genetics  
Animal functional genetics  
Animal genetic diversity  
Animal genetic characterization

Animal gene expression and control  
Animal genetics for animal treatment  
Gene and protein levels of animals  
Mapping of animal gene, traits and QTLs  
Methods for detecting red cell antigens  
Methods for detecting variants of animal proteins  
Molecular genetics and animal genetics
