

CALL FOR PAPERS

ICATPE 2021
Aug 05-06, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICATPE 2021 : International Conference on Advanced Thermochemical Process Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Thermochemical Process Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Thermochemical process engineering
Thermochemical conversion
processes
Thermochemical conversion of
biomass and wastes
Reactor and process design in
sustainable energy technology
Thermodynamics and thermochemistry
for engineers
Solar thermochemical processes
Biomass thermochemical conversion
Thermochemistry
Thermochemical engineering and
applications
Thermal engineering and chemistry
Thermochemical equations and
experiments

Thermochemical systems
Thermochemical storage of heat
Heat transformation
Solid state hydrogen storage
Thermal management of systems
Heat capacity
Heat of combustion
Heat of formation
Enthalpy and entropy
Free energy
