

CALL FOR PAPERS

ICETMA 2021
Aug 05-06, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICETMA 2021 : International Conference on Electronic Textiles, Modeling and Analysis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electronic Textiles, Modeling and Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- E-textiles
- Electronic textiles
- Smart shirt
- Textile technology
- Smart garments, clothing, and electronic textiles
- Smart textiles and fabrics
- Digital computers and electronics for clothing
- Wearable technology
- Wearable computer
- Aesthetic and performance enhancing
- Athletic, extreme sports and military applications
- Protective clothing, extreme environmental hazards and space travel
- First generation of smart shirt
- Second generation of smart shirt
- Third generation of smart shirt
- History of e-textiles
- E-textiles with classical electronic devices
- Fibretronics
- Electronic capabilities of textile fibers
- Organic fiber transistors
- Organic solar cells on fibers
- Uses of e-textiles
- Health monitoring
- Sports training data acquisition
- Military applications
- Innovative fashion
