

# CALL FOR PAPERS

**ICFTS 2021**  
**Aug 05-06, 2021**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFTS 2021 : International Conference on Futuristic Timber Structures is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Futuristic Timber Structures. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Architecture and Structural Design  
Architecture, Urban Planning and Design  
Building envelopes/Facades  
Comprehension of complex forms  
Computer and experimental methods  
Concept architectural buildings and futuristic structures  
Concrete and masonry structures  
Emerging technologies  
Glass structures  
Innovative architectural and structural design

Landscape Architecture and Urban Planning  
Lightweight and membrane structures  
Special structures  
Steel and composite structures  
Structural design challenges  
Tall buildings  
The tectonic of architectural solutions  
The use of new materials  
Timber structures  
Urban and Regional Planning
