

CALL FOR PAPERS

ICGCDME 2021
Aug 05-06, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGCDME 2021 : International Conference on Green Corridor Design, Management and Enforcement is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Green Corridor Design, Management and Enforcement. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wildlife corridor	Re-establishment of populations
Habitat corridor or green corridor	Purpose of wildlife corridor
Principles of wildlife corridor design	Users
Ecological effects of habitat fragmentation	Types of wildlife corridor
Corridor evaluation	Regional wildlife corridor
Corridor features	Sub-regional wildlife corridor
Culvert design	Local wildlife corridor
Vegetation restoration	Worst effects of habitat fragmentation
Management and enforcement	Costs
Natural resource management	Monitoring use
Habitat connecting wildlife populations separated by human activities or structures	Design
Negative effects of inbreeding	Examples
Reduced genetic diversity	Major wildlife corridors
