

# CALL FOR PAPERS

**ICWMN 2021**  
**Aug 05-06, 2021**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWMN 2021 : International Conference on Wireless and Mobile Networking is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wireless and Mobile Networking. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wireless sensors networks  
Wireless mesh networks  
Wireless ad-hoc networks  
Wireless and Mobile network systems  
Wireless LANs, WiMax, mobile networks  
Wireless mobile network architecture and protocols  
Wireless mobile network security issues, Model and threats  
Technologies in wireless mobile network  
Wireless and mobile network algorithms and Complication analysis  
Wireless multimedia networking  
Multicasting and broadcasting issues  
Bluetooth and Android Smartphone application  
Broadband networks

Wireless Internet Technologies  
Satellite Technologies  
Mobile and wireless network secure applications  
Data management on mobile and wireless computing  
Distributed algorithms of mobile computing  
Emerging standards and technologies in wireless mobile network  
Energy efficient networks  
Embedded systems  
Combination of wired and wireless networks  
Information and data Management on wireless and mobile computing  
Mobile ad hoc network  
Mobile Internet and mobility management  
Parallel, distributed and Grid computing
