

CALL FOR PAPERS

ICNAA 2021
Aug 16-17, 2021
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNAA 2021 : International Conference on Nickel Alloys and their Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nickel Alloys and their Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nickel alloys
Nickel alloy materials
Sustainable nickel alloys
Special-purpose nickel alloys
Nickel alloy material evaluation and processing
High performance nickel alloys
Nickel alloys for engineering applications
Tensile and compression properties of nickel alloys
Mechanical and dynamic mechanical analysis of nickel alloys
Commercial and experimental nickel alloys
High strength nickel alloys

Atomic structure and structural stability of nickel alloys
Structural modeling of nickel alloys
Classification of nickel alloys
Processing, markets and applications of nickel alloys
Structure of nickel alloys
Mechanical properties of nickel alloys
Thermal properties of nickel alloys
Nickel alloys and processing
Nickel alloys for aerospace applications
The latest characterization techniques of nickel alloys
Function developments and application potentials
