

CALL FOR PAPERS

ICMDMCT 2021
Aug 23-24, 2021
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMDMCT 2021 : International Conference on Mood-Dependent Memory and Cognitive Theories is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mood-Dependent Memory and Cognitive Theories. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mood-dependent memory
Theories of emotion
Somatic theories
Neurobiological theories
Cognitive theories
Internal versus external events
Mood congruence versus mood dependence
Music-dependent memory
Arousal and valence in memory
Mood-memory interactions

Emotion and encoding
Emotion and storage
Emotion and retrieval
Contextual effects of emotion on memory
The mood congruence effect
Mood-state dependent retrieval
Memory of felt emotion
Emotion regulation effects on memory
Emotion-induced forgetting
Depression and memory
