

CALL FOR PAPERS

ICNTEA 2021
Aug 19-20, 2021
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNTEA 2021 : International Conference on Nanofabrics in Textile Engineering Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanofabrics in Textile Engineering Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanofabrics
Nanotechnology textiles
Nanoscopic fibers
Nanofabrics in emerging technologies
Nanofibers
Carbon nanofiber
Nanofiber seeding
Synthesis
Potential applications
Self-twisting
Sol-gel
Electrospinning
Applications

Textile manufacturing
Drug delivery
Tissue engineering
Environmental implications
Manufacturing processes of fibres and textile surface patterns for nano textiles
Bioengineering, molecular chemistry, physics, electrical engineering, computer science and systems engineering
Health impact
Effects of nano-silver in textiles on skin flora
Wearable technology
Innovative fashion
Innovative textiles
Innovative fashion design
Smart clothing
