

CALL FOR PAPERS

ICPG 2021
Aug 19-20, 2021
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPG 2021 : International Conference on Planetary Geology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Planetary Geology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Planetary geology, astrogeology and exogeology

Planets, their moons, asteroids, comets, and meteorites

Earth-based geology and planetary geology

Planetary volcanism and surface processes

Global geophysics

Mineralogy and petrology

Gravity and magnetic methods

Exploration seismology

Geophysical signal processing

Geological engineering and groundwater

Nuclear geophysics

Remote sensing and gis in geomorphology

Tectonics and crustal evolution

Geophysics market

Petroleum geology

Environmental geology

Geology and mineral resources

Geological engineering

Tectonics and sedimentation

Structural geology

Exploration geophysics

Mining geology

Volcanology

Physical geology

Geomorphology

Geophysics and geodynamics
