

CALL FOR PAPERS

ICWHR 2021
Aug 09-10, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWHR 2021 : International Conference on Wildlife Habitat Relationships is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wildlife Habitat Relationships. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

| | |
|---|---|
| Wildlife-habitat relationship | Habitat conservation |
| Wildlife-habitat models | Wildlife habitat |
| Wildlife habitat relationships in forested ecosystems | Habitat type and by habitat quality |
| Wildlife habitat relationships and biodiversity | Forest stewardship: wildlife |
| Habitat management | Woodlands and wildlife |
| Wildlife habitat assessment | Management practices for enhancing wildlife habitat |
| Preservation and restoration | Seasonal habitats for wildlife |
| Wildlife and habitat management | Forest finance |
