

CALL FOR PAPERS

ICWPESM 2021
Aug 09-10, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWPESM 2021 : International Conference on Wildlife Protection and Endangered Species Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wildlife Protection and Endangered Species Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Endangered and threatened wildlife
Endangered wildlife species
Protection, conservation, and
recovery
Endangered species management
Protection of biological diversity
Protection of endangered wildlife
species
Endangered wildlife resource
management
Social and perceptual factors in
endangered species management
Developing animal model systems for
embryo technologies
