

CALL FOR PAPERS

ICATEM 2021
Aug 26-27, 2021
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICATEM 2021 : International Conference on Advances in Technology and Engineering Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Technology and Engineering Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Emerging trends in engineering innovations and technology management
Electrical engineering
Electronics and communication engineering
Computer science and engineering
Mechanical engineering
Civil engineering
Technology management
Competitiveness and cooperation
Knowledge assets
Globalization, business/government relations
Productivity, efficiency, quality

Sourcing, technology transfer/licensing
Strategic planning, technology management/policies
R&D and design management
Multinational corporations, innovation, new technology, IT
Management of production systems, factory and office automation
R&D/manufacturing/marketing and after-market interface
International technology management policy and strategy
Legal aspects and financial considerations
Investment patterns and opportunities
Technology monitoring, audit, evaluation
Technology relations/trends
