

# CALL FOR PAPERS

**ICDCC 2021**  
**Aug 12-13, 2021**  
**Venice, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDCC 2021 : International Conference on Digital Circuits and Coding is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Digital Circuits and Coding. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electric energy processing  
Electromagnetic and photonics  
Electro-optical phenomena of semiconductors  
Power electronics and energy systems  
Signal processing  
Techniques of laser and applications Of electro-optics  
Simulation of propagation  
Circuits, devices and systems  
Smart grid and circuit  
Signal and multimedia processing  
Computers, software and applications  
Ocean engineering and marine technology  
Computers, software and applications

Biomedical electronics and bioinformatics  
Communication engineering  
Electronics and electrical engineering  
Computer science applications  
Nano electro mechanical System  
Photonics and optoelectronics  
Networking, communication and multimedia  
Information engineering  
Wireless/Mobile communication and computing  
Software specification and software assurance  
Analysis of power quality and system stability  
Assembly and packaging  
Analog circuits and digital circuits
