

# CALL FOR PAPERS

**ICHBEA 2021**  
**Aug 12-13, 2021**  
**Venice, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHBEA 2021 : International Conference on Hybrid Biomaterials in Engineering Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Hybrid Biomaterials in Engineering Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Hybrid biomaterials	Commercial and experimental hybrid biomaterialsA
Sustainable hybrid biomaterials	General-purpose hybrid biomaterials
Biologically-responsive hybrid biomaterials	High strength hybrid biomaterials
Synthesis, characterization and self-assembly	Hybrid biomaterials chemical compositions
Hybrid biomaterials for tissue engineering	Hybrid biomaterials manufacturing and production
Hybrid biomaterials in drug delivery and molecular recognition	Recycling and reuse of hybrid biomaterials
Cell responsive biomaterials in tissue engineering	Hybrid biomaterials reinforcement
Hybrid biomaterials evaluation and processing	Atomic structure and structural stability of hybrid biomaterials
High performance hybrid biomaterials	Structural modeling of hybrid biomaterials
Hybrid biomaterials for engineering applications	Bioactive hybrid biomaterials
Tensile and compression properties of hybrid biomaterials	Optical and electronic phenomena in hybrid biomaterials
Mechanical properties of hybrid natural fiber composites	Hybrid biomaterial properties
Mechanical and dynamic mechanical analysis of hybrid biomaterials
