

CALL FOR PAPERS

ICHCMEA 2021
Aug 12-13, 2021
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHCMEA 2021 : International Conference on Hybrid Composite Materials for Engineering Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Hybrid Composite Materials for Engineering Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Hybrid composites
- Hybrid composite materials
- High performance hybrid composites
- Hybrid composites for engineering applications
- Hybrid biocomposites
- Biofiber-synthetic fiber composites
- Hybrid textile biocomposites
- Tensile and compression properties of hybrid composites
- Mechanical properties of hybrid natural fiber composites
- Mechanical and dynamic mechanical analysis of hybrid composites
- Commercial and experimental hybrid composites
- General-purpose hybrid composites
- High strength hybrid composites
- Hybrid composite chemical compositions
- Hybrid composite manufacturing and production
- Recycling and reuse of hybrid composites
- Hybrid composite reinforcement
- Atomic structure and structural stability of hybrid composites
- Structural modeling of hybrid composites
- Hybrid composites as precursors of bioactive glass ceramics
- Bioactive hybrid composites
- Optical and electronic phenomena in hybrid composites
- Hybrid composite properties
- Physical properties of hybrid composites
- Chemical resistance of hybrid composites
